SCRIPT	ERROR	FIX & RULE OF THUMB
PRACTICE-01	Line 44: geo is not defined	
PRACTICE-01	ImageCollection (Error) ImageCollection.load: Expected asset 'projects/ee-patterns/assets/p01/chipmanHill_2023_35cm_DEMHF' to be an ImageCollection, found 'Image'.	
PRACTICE-01	<i>The slope layer does not look right.</i>	
PRACTICE-01	<i>The hillshade layer does not look right.</i>	
PRACTICE-02	Line 52: imagee_ve is not defined	
PRACTICE-02	<i>The hillshade layer does not look right.</i>	
PRACTICE-02	Line 66: Too many (2) arguments to function: Image.selfMask(image) Updates an image's mask at all positions where the existing mask is not zero using the value of the image as the new mask value. The output image retains the metadata and footprint of the input image. Args: image (Image): The image to mask with itself.	
PRACTICE-02	In users/jhowarth/eePatterns:modules/geo.js image.divide is not a function	
PRACTICE-02	Line 115: Required argument (mask) missing to function: Image.updateMask(image, mask) Updates an image's mask at all positions where the existing mask is not zero. The output image retains the metadata and footprint of the input image. Args: image (Image): Input image. mask (Image): New mask for the image, as a floating-point value in the range [0, 1] (invalid = 0, valid = 1). If this image has a single band, it is used for all bands in the input image; otherwise, must have the same number of bands as the input image.	
PRACTICE-02	<i>The reclassified land elevation layer does not look right.</i>	

SCRIPT	ERROR	FIX & RULE OF THUMB
PRACTICE-03	<p>4.5 Hillshade: Layer error: Image.projection: Parameter 'image' is required.</p> <p>4.6 Slope: Layer error: Image.projection: Parameter 'image' is required.</p>	
PRACTICE-03	 <p>Weird histogram; reports non-integer data values.</p>	
PRACTICE-03	<p>In users/jhowarth/eePatterns:modules/geo.js Required argument (key) missing to function: Dictionary.get(dictionary, key, defaultValue)</p> <p>Extracts a named value from a dictionary. If the dictionary does not contain the given key, then defaultValue is returned, unless it is null.</p> <p>Args:</p> <pre>dictionary (Dictionary): Undocumented. key (String): Undocumented. defaultValue (Object, optional): Undocumented.</pre>	
PRACTICE-03	<p>3.3 Parent Materials of Addison County: Layer error: Image.updateMask, argument 'mask': Invalid type. Expected type: Image<unknown bands>. Actual type: FeatureCollection.</p>	
PRACTICE-03	<p>4.5 Hillshade: Layer error: Feature, argument 'geometry': Invalid type. Expected type: Geometry. Actual type: Image<[max]>.</p> <p>4.6 Slope: Layer error: Feature, argument 'geometry': Invalid type. Expected type: Geometry. Actual type: Image<[max]>.</p>	
PRACTICE-04	<p><i>Too many classes in Check 3.4 (should be three classes but instead there are ten).</i></p>	
PRACTICE-04	<p>In users/jhowarth/eePatterns:modules/geo.js Invalid position: position-on-map</p>
